(a) This new and more comprehensive presentation of Hire Purchase statistics is not comparable with the previous series entitled "Retail Hire Purchase Operations of Finance Businesses" presented in earlier issues of this publication because it includes details of the operations of Retail Businesses as well as those of Non-Retail Finance Businesses. "Retail Businesses" include retailers who finance their own hire purchase agreements either themselves or through subsidiaries set up solely for the purpose. "Non-Retail Finance Businesses" include those which finance the sale of goods by retail, but do not retail goods themselves.
